FOREIGN EDUCATION INFORMATION**

RE 223 (Rev. 7/93)

P.O. Box 187001  
Sacramento, CA 95818-7001**GENERAL INFORMATION**

What is "foreign education"?

This Department defines "foreign education" as: college course credits and degrees earned at institutions outside the United States.

"Foreign education" to be used as part or all of the required qualifications for the real estate examination must be translated (if necessary) and evaluated before it can be submitted to the Department of Real Estate for processing.

If you have transcripts showing a degree earned outside the United States, we require that you have them translated and/or evaluated at one of the Credentialing Services listed below, since they provide both services.

If you are trying to substitute a course(s) (i.e., Business Law, Economics or Accounting) taken at an institution outside the United States, we need verification stating that the institution is accredited *and* that the course(s) taken is equivalent to a specific course taken at an accredited institution in the United States. The number of units per course should be broken down in semester or quarter units.

If you are a broker applicant and your experience is being substituted by a degree earned outside the United States, you must submit verification that the institution is accredited and that your four-year degree is equivalent to a four-year degree earned from an accredited institution in the United States.
